RE: Altamont Corridor Vision Phase 1 Improvement Program Inclusion in FASTER Bay Area

Dear Carl, Jim, and Alicia,

Visit Tri-Valley is pleased to provide this letter to strongly support the inclusion of \$1.9 billion for the Altamont Corridor Vision Phase 1 Improvements Program as part of FASTER Bay Area. It is our understanding the Silicon Valley Leadership Group, Bay Area Council, and SPUR are working in partnership to have FASTER Bay Area on the November 2020 ballot for Bay Area voters.

The Altamont Corridor that connects the San Joaquin Valley to the Bay Area is one of the most heavily traveled, most congested, and fastest growing corridors in the Northern California megaregion. The Bay Area Council estimates that congestion will increase an additional 75% between 2016 and 2040. To achieve state and regional environmental and economic development goals, a robust passenger rail alternative is needed in the Altamont Corridor to increase mobility by providing a sustainable transportation option, provide greater connectivity, and a better quality of life and access to jobs, educational opportunities and health care facilities.

The Altamont Corridor Vision Phase 1 Improvement Program is the result of a partnership between the Tri-Valley – San Joaquin Valley Regional Rail Authority (Valley Link), San Joaquin Regional Rail Commission (Altamont Corridor Express [ACE]), and San Joaquin Joint Powers Authority (San Joaquin.) The vastly improved infrastructure through the Altamont Pass would be separated from freight, double tracked, grade separated, and enable fast (up to 125 mph maximum speeds), and frequent service. The Altamont Corridor Vision Phase 1 Improvement Program is the first step towards the completion of the Altamont Corridor Vision which is consistent with the 2018 State Rail Plan, 2007 MTC Regional Rail Plan, MTC Resolution 3829 from 2007, and the CHSRA's Altamont Corridor Rail Project.

The Altamont Corridor Phase 1 Improvement Program would:

- Substantially increase regional rail ridership in the Altamont (I-580/I-680) Corridor.
- Reduce the amount of greenhouse gases and air pollution emissions by diverting trips that would have previously been taken by an automobile.
- Reduce congestion on some of the Bay Area's most congested freeways (I-580/I-680 Corridor).
- Promote transit-oriented development throughout the Altamont Corridor.

The transformative Altamont Corridor Vision Phase 1 Improvement Program would have a very positive effect on the Northern California Megaregion's underserved priority and rural communities by providing a convenient and inexpensive alternative to the rising costs of automobile. The Vision would also foster more compact and sustainable growth, providing access to affordable housing and a chance to rebalance the job centers equitably.

We are pleased to provide this letter of strong support of the Altamont Corridor Vision Phase 1 Improvement Program to be included as part of FASTER Bay Area to help move the Bay Area and the Northern California Megaregion forward.

Cordially,

Barbara Steinfeld

President & CEO
